

# ADAPTIVE RELEASE MEMBERSHIP

Instructors can use the adaptive release feature in ulearn to make certain course assignments available to select students but not others using specific dates and membership criteria (a student's J-number will be needed). Instructors can use this for students who have a legitimate reason for turning in assignments beyond the assignment's regular due date or for taking an exam before or after other students have access to it.

---

## Instructions

1. First, locate the student's j-number. Go to the Course Management area of the ulearn menu and click on **Course Tools** and then select **JWU Roster Report**.

2. Locate the student or students J-numbers. Write them down or right click to copy the entire J-number with the mouse.

3. Navigate to the [content area](#) (i.e., Week 1) on the left menu where the assignment(s) is located in your course.
4. Click the down arrow for the assignment and select **Adaptive Release**.

5. In the Date section, enter a **Display After date and time** and a **Display Until date and time**. This will be the window of time you expect the student be able to complete an assignment.

**DATE**

Setting a Date criterion for this item will restrict the dates and times of the visibility of this item.

Choose Date

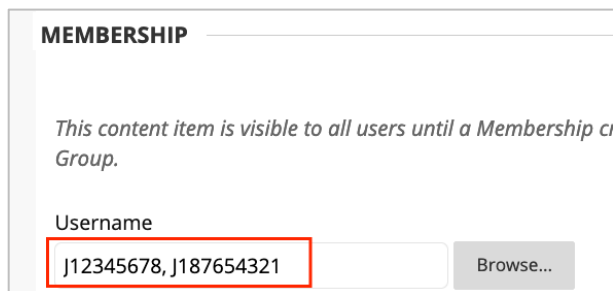

Display After 02/01/2022 12:00 AM

Enter dates as mm/dd/yyyy. Time may be entered in any increment.

Display Until 02/13/2022 11:59 PM

Enter dates as mm/dd/yyyy. Time may be entered in any increment.

6. In the membership section, in the username box, either type in the student's **J-number** or paste it with the mouse if you copied it in a previous step. You can add more than one J-number but be sure to separate it with a comma. Do not click Browse, otherwise you will get an error.

**MEMBERSHIP**

This content item is visible to all users until a Membership Group.
